

Mackenzie Modular Bench

Model Number: MKSB-6, MKSB-4, MKSB-5,
MKSB-7, MKSB-8

Example of One of Hundreds Different Configurations Available

Designer Notes

Geometry never looked so good. The Mackenzie Modular Bench adds a modern geometric edge to any environment. This bench allows people to visit side-by-side or face-to-face depending on how the pieces are fit together. The concept of this bench is to take left and right parallels, rectangles and wedges to create a bench that is not only stylish but practical. Thousands of seating combinations are possible owing to the 3,4,5 and 6 feet sections that can be configured in a variety of ways to brilliantly creative results. Ideas and combinations are only limited by your imagination! We are in the process of creating the various combination options. Please call for more details and pricing.
