

BESELT SQUARE TOP WASTE RECEPTACLE

Model Number : BST-24

DESIGNER NOTES

Suggesting a classic mailbox, the commercial Beselt Square was created with aesthetics and practicality in mind. This design addresses all the user groups from landscape architects, contractors, maintenance crews, through to end-users. The optional one-of-a-kind pedal mechanism provides a hands-free experience for the user and closes tightly enough to prevent most critters such as squirrels and birds from accessing the interior. The innovative hidden side door release makes it easy for maintenance crews to empty the bag without having to carry a key or struggle with frozen locks. The receptacle opening was designed specifically with a limited 6" or 8" opening to deter local residents from disposing of their household trash. The solid, non-removable top with a slight curve makes water flow away from the interior of the unit. Available with custom cast lettering on the waste door and bottle/can recycler baskets (see Installation Gallery).
