

BESELT ROUND SELF WATERING PLANTER

Model Number : BRSW-35

DESIGNER NOTES

The Beselt Round Self Watering Planter was designed at the request of a customer looking for a planter to aesthetically compliment the other products in the Beselt family of products. It's the perfect complement, not only utilizing the low maintenance attributes of a powder coated aluminum frame but takes advantage of the recent advances in self watering technology. These types of planters have revolutionized the balance between water consumption, vibrant and healthily plantings and the efforts and time input it takes to do this, particularly in dry climates. The unique built in water reservoir stores and captures all the water that comes in and directs it to the plantings. Water consumption is minimized through evaporation now directing more than 80% to when and where its needed. The benefits also extend to labour savings. Planters in the summer months require almost daily water applications to keep the soil moist and the plants healthy. Once the root systems have been established the reservoir wicks the water up to them reducing the need for daily visits and in many cases eliminates the need for watering from weekly to even monthly depending on the rainfall in that particular area. In area's where there is heavy rainfalls not only does it store the water but the build-in overflow drain ensures the soil does not get too saturated.

Lastly, in municipal applications where the planters need to be relocated in the winter months, the entire unit can also be easily moved by forklift as there are slots in the base specifically designed for this purpose.

PRODUCT SPECIFICATIONS

Durable Powder Coated Aluminum Frame

Standard Colours: Brown Slate, Victor Ridge II, Nordic Lichen, Timeless Rust, Grey Gold, Textured Silver, Precious Sand, Groovy Red, Black Textured, Earth Clay, Noble Bronze, Modern Khaki, Flame Red, Pastel Orange, Signal Violet, Traffic Yellow, Ultramarine Blue, Water Blue, Yellow Green

SELF WATERING FEATURES

The unique bottom feeding method produces a vibrant, healthy and colourful display of plants and flowers. Saves Up to 80% reduction in water consumption Under normal growing conditions, planters only need to be filled 1-2 times a month depending on the site location. This saves you time and maintenance dollars while conserving water and dramatically reducing your carbon footprint. Overflow drain ensures optimized watering levels

CUSTOMIZED SOLUTIONS

Larger Soil Capacity Options of 36 Gallon /137 L and 49 Gallon/187 L

PRODUCT DIMENSIONS

Outside Diameter: 35 3/4 inches / 908mm
Diameter of the Liner: 30 inches / 762mm
Height: 23 3/8 inches / 592mm
Weight: 70 lbs / 32kg
Reservoir Capacity: 25.24 US Gal / 95.56 L
Soil Capacity: 3.82 Cubic Feet

RECYCLED CONTENT

0% RECYCLED CONTENT BY WEIGHT
100% RECYCLABLE

100% Canadian Made

Wishbone Ltd. provides an extended 10 year limited warranty from the date of invoice.
