

# BUDDY BENCH

Model Number : Buddy-6 (6ft) Buddy-5 (5ft)

## DESIGNER NOTES

Our colourful, distinct buddy bench is a simple idea to reduce loneliness and foster new friendships on the playground.

Alternatively known as “friendship benches” these are special places to sit when a child feels the need for a friend to talk to. Usually located in well-traversed and open areas, a child can sit on this bench letting other children and staff know that some support or comfort is needed. From seemingly small matters to more serious concerns, the Buddy Bench encourages children to ask for help when they need it most. This bench has a lot going for it. Its economical price point makes it affordable for schools and communities. The design and overall construction have been proven now for years, to stand up to the rigours people and the environment can throw at it. The recycled plastic lumber does not support fungus or algae growth and does not require any special cleaners to keep it clean. Its bright recycled plastic lumber slats stand out and adds colour to any space it occupies.

The Buddy Bench is also ideal in indoor applications such as elementary schools. The 16-inch seat height is comfortable for children and the low centre of gravity make it virtually impossible to tip over. The custodial staff are not opposed to having the bench either, since it is easy to move around for cleaning as the all-plastic leg ends don't scuff up the floors.

Finally, every bench helps clean up our environment. Every bench helps divert over 150 lbs of recycled plastics from entering our streams.

## AVAILABLE RECYCLED PLASTIC LUMBER COLOURS

The colours are an approximate representation. For more information, contact your distributor.

Wishbone Ltd. provides an extended 10 year limited warranty from the date of invoice.
