

CITYSCAPE BACKLESS PARK BENCH

Model Number : CSSB-6

DESIGNER NOTES

Designed to be immediately recognizable as modern and architectural, the Cityscape Backless Bench's design employs strong shapes and curves. Modelled after the "with backrest" version of the bench, this bench implies function and motion. As with any backless bench, users can orient themselves in any direction on the expansive and comfortable seat section. The pedestal section that supports the seating surface can house different materials such as tempered glass or materials and surfaces already in the setting.
