## DESIGNER NOTES

Extremely functional, durable, and appealing to the eye, the Rutherford planter comes in a variety of lengths, widths and depths. Completely customizable, all we need to know what dimensions you need to suit the application and we will design and build to suit. Its built in drain holes ensure plants are never over watered and heavy-duty optional castors could allow for moving it around if necessary. Incorporating the lumber-in-channel technique (without any fasteners) from our outhouse buildings means that component parts can be easily swapped or replaced. Overall the Rutherford planter design concept is very versatile and easy to maintain. We welcome your ideas and suggestions and love the challenge!
