DESIGNER NOTES

Sleek, modern, and bordering on functional art, the TENAJ bike rack will enhance any contemporary setting. The open design provides a range of ways to lock and secure bicycles. Durable aluminum frame and powder-coated finish prevent scratching and corrosion over time. Can be installed in virtually any configuration depending on the application (see Installation Gallery).

The name for this futuristic bike rack came about when the designer's wife commented that although several of his friend's already had a 'namesake' bench she was still waiting. See if you can figure out the how she got her way. (Hint: some things work better backwards)
