

URBAN SPACE WALL MOUNT BIKE RACK

Model Number : USWM-77

Wishbone
site furnishings

DESIGNER NOTES

Highly visible and ready-to-brand with logos or wording, the Urban Space Bike rack design combines great aesthetics, functionality and flexibility. Multiple lock-through points allow a wide range of bicycle styles and lock types. Even when not in use this minimal-footprint bike rack is attractive – almost like sculpture – while still remaining instantly recognizable for its function. Create layouts ranging from only a single unit to however many the space permits or is needed for the application. Mounted securely to concrete, the bike racks can be added or removed depending on seasonality or changes in usage.
