## DESIGNER NOTES

Architecturally appealing yet practical, the Wishbone Diamond Top Bollard plays an attractive rot-free, split-free and environmentally beneficial role in keeping parks and sidewalks safe, and pedestrian friendly. The European design brings a sharp modern look to any outdoor setting without the worry and expense of maintenance. Use the Diamond Top Bollards as signposts along a walkway or path, or use the bollards to add interest and define outdoor perimeters. The diamond top design is not only stylish but smart as it functions to restrict objects from being placed and left on top of the bollard. Cleaning and maintaining is a breeze. Lawn trimmers can't damage the plastic and there is no need to repaint, ever. These bollards are made from 100% recycled plastic; in fact, 39 lbs of plastic or the equivalent of 390 food and beverage containers is diverted in the making of each bollard. Now doesn't that make the earth happy?
