

NO POST/JERSEY CONCRETE BARRIER BENCH

Model Number : JB-5

Barrier is not included

DESIGNER NOTES

This bench was designed with the intention of repurposing the ubiquitous “No Post” or “Jersey” concrete barrier. The bench lines up with the holes and provides seating; in many cases where none is available. It affords communities or event planners the ability to create permanent or temporary seating depending on the specific application. This clever bench can be placed at the end of a trail head, in a parking lot or along a roadside. It is easy to install or remove and astoundingly tough. (see video). Note that it is designed to fit the “No Post” specification for BC Ministry Of Transportation’s Precast Concrete Roadside Median and Drainage Barriers. Modifications can be made for your specific locale.
