

BESELT SQUARE PLANTER BOX

Model Number : BSP-32-CB (Shown with Curved Base) BSP-32-SB (Square Base)

DESIGNER NOTES

A customer approached us, asking for a planter that would coordinate well with some existing furnishings in the community. The style of this planter with the optional CURVED or SQUARE base detail draws design cues from the other products in the Beselt family. This robust all-metal design is an excellent choice for the municipal environment and has the option to be either portable or fixed with hidden bolt down brackets. A liner inside the planter can be removed in the fall once flowers finish or can be decked out for the holidays during the winter months. In an environment where the growing season is short, plants can get an early start in the greenhouse then be ready when spring has sprung for a stunning summer show of blooms. Do you want your brand or logo proudly displayed? The side plates of the planter can be customized just for you. Is there a colour that would work perfectly in your space? We've got it! Versatile, practical, and modern, this planter checks the boxes.
