

BIKE RACK SHELTER

Model Number : BRS-1616

DESIGNER NOTES

This unique bike shelter was custom designed for Thompson Rivers University and can accommodate up to 32 bicycles. The free-span design allows for many different configurations of bike racks to be installed inside. Sheltered from the elements by the durable acrylic roofing and safety glass side panels, users can confidently secure their bicycles throughout the day. Its modular design means that it is easy to assemble and it can be customized to a variety of dimensions.
